181 FREMONT

THE RESIDENTS' CLUB

Everything happening here, in one place.

The site

181residents.com holds the whole calendar: every gathering, dinner, and class, with the details written out. Nothing to install; it works on an iPad, a phone, or a computer.

Your resident code

Sign in once with your personal code and this device stays signed in for a month. No code, or lost it? The front desk can hand you a fresh one, any hour of the day.

Saying yes

Open an event and tap RSVP: just you, or bring one or two others, with names if you like. A bigger party? Tap **Please contact me** and we will arrange it. If an event is full you may join the waitlist, and you will hear from us the moment seats open.

Changing your mind

My RSVPs keeps everything saved to your name. Change the party or cancel any time; seats already confirmed stay yours.

Your own calendar

Add to My Calendar puts any event in your calendar app; if a date or time changes, tap it once more and the entry rights itself. Better still, subscribe once at the foot of the calendar and every event keeps itself current.

Notes to neighbors

Neighbor Notes, on the home screen, is the building’s board: pin a signed note, see the hands go up, and each note fades after three days. The **Message** line below it reaches Resident Experiences directly, with a reply within one business day.

Point your camera at the code, or visit
